Web Resources

Visit www.tobaccofreecollegesnc.com. This user-friendly site provides the public with basic, downloadable information about tobacco-free colleges and ways to implement the policy.

Tobacco-Free Colleges Compliance Workshop

This training is offered to staff responsible for policy implementation on campuses that have adopted strengthened tobacco use policies. Topics covered include: planning for implementation; common compliance challenges and solutions; and lessons learned from other tobacco-free colleges. Compliance toolkits are provided to participants.

QuitlineNC

At 1-800-QUIT-NOW, faculty, students and other campus staff can receive free and confidential help with quitting tobacco. Online assistance is available through www.quitlinenc.com.

Technical Assistance

Technical assistance is available to help campuses, college administrators, community advocates and community coalitions assess needs, develop advocacy strategies, address compliance issues, establish tobacco cessation programs and develop processes for monitoring and evaluating the policy.

Peer Networking

We can link campus administrators interested in adopting this policy – including student government, student services and campus health centers – with their peers on other campuses that have successfully done so.
